## MITCHELL IS ON WARPATH

**Demands To Know From Attorney-General Why No Inquest Held When Farmerette Was Killed On No. 8 Highway — Also Wants Speed Limit Reduced To 35 Miles An Hour.**

At North Grimsby Council on Saturday afternoon last, Councillors Mitchell and McNiven both expressed great dissatisfaction with the fact that Crown Attorney E. H. Lancaster, or the Chief Coroner of the County, had not ordered an inquest into the death of the young Farmerette on No. 8 Highway west, some weeks ago.

This also was leading up to the old argument that Councillor Mitchell has had for some years, that the speed limit through the township should be reduced from the legal 50 miles per hour owing to the congested area along No. 8 Highway. Several resolutions along this line have been passed by Council in the past five years but to date Department of Highway officials have failed to do anything about the matter.

The two motions as passed unanimously by council were as follows:

Mitchell-McNiven — "That the Department of Highways be asked to reduce the speed limit on No. 8 Highway through the Township of North Grimsby from 50 to 35 miles per hour, as this is a very thickly populated area with two schools."

Mitchell-McNiven — "That the Clerk write the Attorney-General of Ontario and call his attention to the fact that Miss Anderson, a farm worker, was killed on No. 8 Highway, while on her way to church, by a motorist, and we

## Grimsby Weather

Week ending at 8 a.m., Monday, Sept. 16, 1946.  
Highest temperature 77.2  
Lowest temperature 39.0  
Mean temperature 60.5  
Precipitation 0.81 inches

## Salvage! Salvage!

Chairman George Warner of the Salvage Committee of the Canadian Legion informs The Independent that it is the intention of the Legion to hold another salvage collection within the next three weeks.

No definite date has been set but it is expected that the peach rush will be pretty well over within the next three weeks and then the collection will be made.

Watch this paper for further particulars.

## Tomatoes Growing Roses Blooming

And still he comes. Art Gilbey of the E. D. Smith and Sons fruit and vegetable buyer has been breaking his own record all summer with big tomatoes.

Last Thursday he set a third new record. This time the tomato weighed 30 ounces and measured 16 inches around each way. The crop of 25 acres on the firm's Jordaan farm is exceeding all expectations and will run well over the 8,000 bushels estimated.

On this same farm at the present time are 200,000 rose bushes all out in full bloom. This is the last time these bushes will ever bloom as they are all to be destroyed. The firm is going out of the nursery business.

## More They Come Bigger They Get

If this keeps on "Red" Graham and his Paton street followers of agriculture might just as well go out of business. In another column of this paper will be found a big tomato story. Now here is one to end all tomato stories.

C. D. Jarvis, Kerman Avenue, is the man responsible for this story and he brings his proof with him and lays it on the editorial desk in the shape of eight tomatoes that overflow a six quart basket.

The tommies of the Oxheart breed, supposed to be non-acid, are certainly whoppers. The eight of them weighed 10 pounds and a half, or an average weight of 21 ounces. These samples were not staked but grew on the regular ground vine.

*The Dignitaries Of The Village Are All Here*

## Baptist Church Pastor Inducted

Rev. George A. McLean Formally Takes Over His New Charge — Prof. Waters Preached Induction Sermon.

Rev. Mr. McLean settled with the local Baptist Church early in July but since it was the beginning of the holiday union services his formal induction into the pastorate here did not take place until last Thursday evening, September 12th.

The Induction Service proper was held in the auditorium of the Baptist Church commencing at eight o'clock. It was under the direction of the Executive of the Niagara and Hamilton Association of Baptist Churches and was conducted by the Moderator R. E. Guyatt, M.D., of Hamilton.

It is a beautiful service, especially prepared for such occasions and contains in addition to the scriptural statement of the duties of church and minister to each other and the acceptance of these obligations by both, a very finely worded charge both to the minister and the church.

The Invocation was led by Mr. P. R. Morrison, of Hamilton, the devotional service by Rev. F. F. Bennett, of Bethel Baptist Church, Hamilton, and the Induction Prayer was given by Rev. P. P. W. Ziemann, of James St. Baptist Church, Hamilton.

The Induction sermon was preached by Prof. F. W. Waters, Ph.D., of McMaster University and was

(Continued on page 11)

This picture shows construction work on Grimsby's first paved street—Away Back—How long ago? A lot of the dignitaries of the then Village are in this photo. Can you pick them out? Just to give you a lead, this picture was taken before the First Great War. A large percentage of the men in the picture have passed to the great beyond, but some of them are still in our midst. Tell us what you know about this street scene.

## Oh, Oh, Women's Hats

## "ANYTHING FROM AN INVERTED SAUCEPAN TO A HEN'S NEST"

### Ration Books

Last week was Ration Book Distribution Week in the Grimsby Ration Board district. On Monday the books were distributed in all municipalities throughout the district except in Grimsby and North Grimsby.

The distribution of books in the Grimsby municipalities was on Saturday and Fred Jewson, Secretary of the Local Ration Board is proud to announce that the distribution took place without a hitch.

Within the local district 13,906 books were distributed which is an increase of 2,037 over the last distribution in 1944.

All the work in connection with the distribution of the books was by volunteer labor and when the final check-up came it was found that there had only been two mistakes which speaks mighty well for the ladies and gentlemen who volunteered their services.

So Says Mr. Justice Chevrier In Lincoln County Court When Making Plea For Decorum And Correct Attire In Canadian Courts.

A woman's hat seems to be "anything from an inverted saucepan to a hen's nest," the Honorable Mr. Justice Chevrier said yesterday at the Supreme Court jury sittings in Lincoln County courthouse, in making a plea for decorum and correct attire in Canadian courts.

The incident arose when Mrs. Annie Wilsech, plaintiff in a claim for damages, took the witness stand. The Judge noticed she was not wearing a hat. Scanning the courtroom, he saw that four other women were present without hats and he proceeded to give a dissertation on correct court dress.

"There is a prevalence today for women to go around in very small and abbreviated attire," he said. "I am not a judge of morality. I have

## Training Jewish Boys How To Farm

Old Thompson Wilcox Farm Is A Hive Of Industry — Lads Will Eventually Go To Palestine.

The Jewish agricultural training farm at Smithville, (formerly the Thompson Wilcox farm), where 26 Canadian-born youngsters are preparing themselves for a pioneering life in Palestine, is now reaping its first harvest. The farm will produce 40 acres of grains, 20 acres of grapes, 10 acres of small fruit, 1½ acres of pears, 2 acres of vegetables and ½ acre of gladioli, as an experiment.

The young men and women, who a year ago knew very little of farm work, have proved themselves very efficient not only in the fields but also in the chicken run and the other branches of farm activity.

A large house for 3,600 chickens, is now being built by the young pioneers who also intend to manufacture their own boxes for marketing the eggs. The herd of the farm includes 30 cows.

The farm is operated by the Hachshara Farms Inc., a non-political and non-partisan party in Canada, with headquarters in Montreal. Its Board of Directors include a number of well-known Jewish businessmen and community leaders from all walks of life, such as: S. Albert, President, F. Leopold, and J. Phillips, well known agricultural expert of Chateauguay.

(Continued on page 11)

## COUNCILS ARE FAVORABLE TO NEW FINANCING PLAN

The Scheme Calls For Each Municipality To Provide One Mill In The Tax Rate For Hospital Purpose — Would Be Drawn As Needed — Would Become Effective In 1947 — In The Meantime A General Canvass Of Towns And Villages Will Be Made.

The plan of the Hospital Board launched last week, whereby the maintenance of the West Lincoln Hospital will be placed on a sound and equitable basis for 1947 and forward was well received by Clinton-Beamsville-Grimsby and North Grimsby Municipal Councils. This makes four up and two to go.

The plan calls for one mill to be set up for the Hospital per year if required, and to be drawn from time to time according to the needs.

In addressing the North Grimsby Council last week Mr. A. R. Globe mentioned a number of centres where the municipalities served club together in this manner, so that no one carries all the burden.

When questioned in detail of the use of the Hospital made by various municipalities, Mr. Globe stated there is nothing uniform about where patients come from, it seems to run in streaks, probably at the end of the year an average may be found that means something. Percentage figures mentioned were taken from Post Office addresses and quoted to illustrate the wide use made of the Hospital's services.

References were made to the financial position which showed that some money is still owing on the construction of the building and that an effort is being made to clear this up before the end of the year. An appeal is being made to fruit growers and the townspeople will be called on at an early date, by way of a general canvass in Grimsby. Other centres are preparing accordingly to hold up their end.

In a few months a year will be completed, which means that the seasonal requirements will all have been met, ranging from the making of a vegetable garden, awnings, ventilating, fly screens, storm sash, etc., down to the preservation of fruit which has been going on for some time, being cold stored, jammed and canned.

The construction of a root house is now being taken in hand in order to take care of a goodly supply of vegetables for the long cold winter ahead.

In the words of the chairman of the Board, it has been quite a long pull, we now know pretty well all the answers and all we need is a good push to clean up the job, and put the Hospital on a sound, equitable and dignified plane where it belongs.

## Reunion A Success

## SMITHVILLE OLD BOYS—GIRLS CAME BACK HOME IN DROVES

### Gets Six Months Term For Theft

Ransacked Smithville Fair Office During Old Boys' Reunion — Apprehended By Night Watchman.

A six-month jail term was imposed Tuesday on Edward Murphy, aged 34, of Toronto, a weight and age guesser who toured country fairs. Although he pleaded not guilty, Murphy was convicted of breaking and entering and theft of \$23 and a \$3 fountain pen from the secretary's office of the Smithville Agricultural Society on September 14.

Evidence was produced by Crown-Attorney E. H. Lancaster, K.C., as the result of an investigation by Provincial Constable Ernest Hart, of Smithville. The Smithville fair and old boys' reunion was held September 12, 13 and 14, stated Charles Shrum, who said \$23, a fountain pen and several cancelled cheques had been left in the society office on the fair grounds.

Albert Wilcox, watchman, said he came across Murphy with his head in the window at six a.m. Saturday. The cheques and money were found on the ground were Murphy had been standing and later the fountain pen was picked.

(Continued on page 11)

## 150 H.S. Pupils Worked On Farms

Grimsby High School opened for the Autumn term on Monday and Principal P. V. Smith informs The Independent that 202 students registered and he expects that this number will be increased to 210. Registration at the opening of school a year ago was 194.

Mr. Smith also states that 150 pupils from the school did farm work this year, the majority of whom worked on farms during the entire time that the school was closed.

Over 800 Registered — From British Columbia And California And All Points In Between — A Big Three Days Of Fun And Frolic.

The population of Smithville was believed to have been more than doubled last week as an estimated 800 visitors swarmed into the village to celebrate the first Smithville Old Boys' Reunion in 25 years. The influx started Thursday and Friday night reached its height.

Holding the Old Boys' Reunion and the annual Smithville Agricultural Society Fall Fair in conjunction to create extra drawing power, the village pulled out all stops on the three-day celebration. Trotting races, band concerts, parades complete with floats, a noisy midway, judging of fruits, vegetables, cooking and livestock, entertainment by radio artists—all these events were jammed into three days of fun, frolic and reunion.

William Grant, president of the Smithville Agricultural Society for the past 12 years, has taken an active part in the proceedings. Friday afternoon he mounted a white horse to lead school children who paraded through the village to the accompaniment of a martial beat provided by the St. Catharines Collegiate Cadet Corps Band and the Beamsville Citizens Band.

Friday night Mr. Grant again mounted his horse, this time to lead what he described as "the largest parade Smithville has ever seen." Decorated floats featured this parade as village organizations and individuals vied with one another for

(Continued on page 11)

## Grape Ceilings

WPTB have set the growers' ceiling price on grapes for 1946 as follows:

Sheridan and Black Rogers (when basket is so marked) and all Red varieties, 42 cents a six quart basket.

All other varieties 30 cents.

These prices are three cents higher than 1945 owing to the increase cost of baskets and covers.

## FACTS & FANCIES

Frank Fairborn, Jr.

### RESPECT FOR LAW

In his remarks to the grand jury at the opening of the fall Jury Sittings of the Ontario Supreme Court at St. Catharines, Mr. Justice Chevrier made some thought-provoking observations on the survival of democracy and the respect for law upon which that survival depends.

As he pointed out, we all want to keep our democracy, and we all cherish liberty and freedom. Yet unless we have a deeply ingrained and constantly expressed respect for the law, we will soon lose our freedom, our liberty, and our democracy. If we did not show this respect, if we tried to take "shortcuts" to justice, if we trimmed bits and pieces off our constitutional fabric, we would soon lose prized possessions and slip into "disorder and anarchy."

Respect for law was, he said, simply a respect for all duly-constituted authority, whether in the courts, the schools, the homes, the factories or Parliament. The teaching of this respect should begin at an early age in the home and in the school, and it had to be practised constantly through life.

His words bear special portent these days when, in some quarters, we see an absolute disregard for law and for duly-constituted authority. Our whole structure is built upon respect for the law and respect for the authorities charged with dispensing the law, taken here in its broadest sense. When that law is flouted, or lightly regarded, Canada will have lost something irretrievable.

### ABOUT PEACHES

There are little peaches quite as good as big peaches, is the theme of The Owen Sound Sun-Times, in comment on a case where a considerable fine was imposed when a buyer got big peaches on the top, little ones below. The offense was plain enough, the buyer did not get what he thought he was buying and was the victim of fraud.

In which case, the Owen Sound paper has some advice:

"That doesn't prevent us from questioning the wisdom of the shopper who judges peaches by size. Of much more importance, it seems to us, is the quality of the fruit. Readers who may be mathematically inclined may even be able to determine whether an eleven-quart basket does not, in fact, actually contain more fruit when the peaches are small, so round, so firm, so closely packed, than when each peach is a whopper for size and leaves great gaps between it and the round outline of its neighbor. That, however, is beside the point. Small peaches are frequently very good peaches and the thrifty shopper should not despise them. Size is no guarantee of quality. If the peach be rotten, there is just more rottenness if it be big. The same principal, of course, holds true of many other things in life."

Let the legion of housewives decide all that. The little berries, the last of the crop, have great merit with many epicures. They are better flavoured and have more sugar content by far than the first picking.

### THERE GOES THE BRIDE

There are some who will say that Ottawa civic authorities are just a bunch of spoilsports, with nary a trace of romance left in their crusted old hearts. There will be others who will praise them to the skies and wish fervently that their own communities might follow suit. We are in the latter group.

What has Ottawa done that deserves such praise? Apparently reaching the breaking point of human endurance, civic authorities there have banned the continuous tooting of automobile horns by the processions which accompany a bridal couple to wherever they may be going after a wedding. It's a noble action, one which will receive fervent support from those whose ears have been blasted by half a dozen horns blowing long and continuously after a Saturday afternoon wedding.

appropriately on the Ottawa action: "The automobile horn was invented and attached to the vehicle for the purpose of communicating news of its approach to the people in front of it, and should be used only when needed for that purpose."

No purpose whatever is served by continuous tooting by the bridal party, except the enjoyment of the tooters; and if people who enjoy tooting are permitted to toot continuously at weddings they will ultimately begin to toot continuously at christenings, Sunday School picnics, golf tournaments, meetings of the Canadian Manufacturers' Association, of the Canadian Authors' Association, and just plain ordinary binges. There is already far to much tooting, and there will be more if it's not suppressed. Let it be suppressed, toot sweet."

To which we can only add, the tooter the sweeter.

### THE COUNTY FAIR SCENE

About this time of year it has been the traditional custom of many thousands of people to attend county fairs and cattleshows. These occasions give a very attractive picture of rural life, and they are highly instructive and educational. They are a sort of rural festival, which gives a most agreeable relief from the toil of working days.

A great many city people also enjoy these scenes, they admire the handsome exhibits of live stock and various farm products, and they are amused by the fun and frolic that goes with these fairs. The crowd is thrilled by the entertainment features, many of them spectacular.

A picture of the county fair crowd would show a gathering of hard working and earnest people, who are out for a day's pleasure, or in hopes of getting ideas useful to farmers and home-makers. As you look over such a crowd you feel confident of the future of our country, since the appearance of the people shows such excellent qualities of industry and intelligence.

### CANADIAN CHARACTERISTICS

Canadians have a distinctive personality, we have been informed by an English friend now on a tour of Canada to write articles for a British newspaper. In comparing Canadian characteristics with those of other nationalities, our friend says we are friendly, well-mannered and basically honest, traits which may well be a source of pride.

This visitor explains further that we are not so forward as the people in the United States, nor are we as reserved as the English. It seems we are happy medium of the two nationalities.

Our friend had this to say about entering Canada after a month's visit in the United States: "From the minute we crossed the border there was a difference. The clean, wholesome look of a Canadian. The manners and polite consideration of the customs officials was so much like one is accustomed to in (England) that it almost un-nerved me. The customs officers did not even ask for my bags to be opened. I played fair. I really had nothing to declare, but the point is they believed me."

It is pleasing to know that visitors like us, that they appreciate the courtesies shown by our officials, that the Canadian method of doing things is a pleasant one. However, we must not become satisfied with ourselves, but rather should strive to make ourselves more pleasant to our guests, and to keep Canada the kind of country people will want to visit.

Incidentally, our English friend was surprised at the number of tourist encampments which dot the highways. Cabins for tourists are not seen in the British Isles, mainly be-

### Modern Advertising

There is, in my opinion, too much advertising in magazines, on the radio, and on the streets. For instance, one day we are driving along the picturesque countryside, looking at the view and breathing the fresh, cool air, when suddenly we come across a billboard advertising "Dr. Watson's Vitamin Pills," or maybe it's about "Aunt Jenny's Corn Plasters." Now as we are interested neither in vitamin pills nor corn plasters, we promptly forget all about them and as far as we are concerned, it was just a waste of time and effort for the artist. Probably nine-tenths of the people look at billboards and forget what was on them, while the other one-tenth never notice them at all.

Finally we come to a city. Since we are talking about advertising, just look at all the signs. Each one contradicts another as they tell of the "soap that gets clothes whiter," "the best walking comfort of a pair of shoes," the "superiority of a certain car." Across the street in a store window we see three different kinds of soap labelled "Suds Soap," "The Wonder Bar," and "The Three-in-one," each one said to be better than any other. But look, a woman is coming from the store with a box of "Zippy Soap Suds." She probably never heard of the other three kinds of soap, or bothered to read the advertisements.

Instead, maybe, we decide to stay home and listen to the radio. The "soap operas" are worse for advertising commercial products than any other type of radio programme. The announcer spends ten minutes describing the wonders of a new breakfast cereal called "Krackley Korn" (which, incidentally, gives you indigestion), and five minutes on a continued story. Or maybe we are feeling in the mood for a little music. Oh, here's "Jason's Jumping Jacks." Now for some restful listening, we think to ourselves. But no luck, in the middle of a sweet number entitled "Hubba, Hubba, Hubba," an announcer pops in, inviting you to use "Shimmereen Shampoo."

Disgusted, we turn off the radio and pick up a magazine. At last here is comfort. But the first page we turn to is a full-sized page of a luscious cooking cake. We stare at it and with our mouths watering turn the page. Here, there are pictures of many vegetables, meats, and more desserts. Finally we can't endure it any longer and we go out to the kitchen and raid the ice-box.

I have tried to show you what I think of modern advertising, and I believe, if you stop and think about it, your reactions will be the same as mine.

—Phil Thompson, in the High School Magazine "The Torch".

# THE GRIMSBY INDEPENDENT

## 'WAY BACK WHEN

Frank Fairborn, Jr.

Mr. James Monaghan, of Grassies, recently sold his fine farm at that point and while preparing to move from the old home found among his possessions a frayed copy of the old Grimsby Gazette, which he very kindly brought to this columnist.

This paper bears the date line of May 26, 1897, and is Vol. 1, No. 33. It never reached its 52nd issue. The paper was started by the late Linus Woolverton, (who, incidentally, was the man who introduced The Canadian Horticulturist to the public) more I believe to give two young Grimsby boys a start in life. LeRoy Oakley, now of Montreal, a brother of Henry Oakley, of Grimsby, who was then an up and coming photographer operating a photographic gallery where the Model Dairy apartments now are and Arthur Magness "Doc" Millward, a young printer who had learned his trade in The Independent office, went to Chicago and worked for a couple of years and came back.

Mr. Woolverton bought a few cases of type, a 12x18 Gordon press and a few other bare necessities and told the boys to go ahead. This equipment eventually found its way into The Independent office. In 12x18 Gordon press and a few other bare necessities and told the boys to go ahead. This equipment eventually found its way into The Independent office. In

The paper was a six column, four page format and in order to be printed had to be put through the press in sections or in other words two press runs for each page and the pages had to be made up and locked up accurately to make the sections join properly. Present day printers could not do a job of this kind.

In the issue I have at hand, local news that I am able to decipher was in the minority, as near as I can make out national news, presumably clipped from the daily papers, took up most of the space. From the few items that are clearly discernable I quote:

Beamsdale Item—"Among the injured employees of the H. G. & B. Railway on Monday we are sorry to announce that Mr. W. D. Fairbrother, (now Registrar of Lincoln County) of this place, received serious injury. It appears that between Stoney Creek and Hamilton, while collecting fares on an open car, he struck his shoulder against a trolley pole, enforcing the rapidity of the arm to strike the pole, thus breaking his hand. The wound was at once dressed, and he now carries his arm in a sling. We wish him a speedy recovery."

Here is a Grimsby item that is a lulu, if you can figure the sarcasm out like I can—Village Politics:

Grimsby Village—The house and shop of Mr. A. Henry was not intended as a wedge to divide the brick from Squire Forbes' residence, but rather to serve as a haven to begin to connect and combine our village even before it was incorporated, for the purpose of a sidewalk. Here a grass-widow of some noted tragical event, left her husband and kept a millinery establishment. Then Conrad Durham was Major-domine until Duke Walker bought the place. This has been a busy mart during many years; the sound of the shop door, the ring of the meat axe falls on the ear at nearly all working hours, calling all honest men to buy and make all things ready for a feast. And thus mote it be.—C.E.W.

Rev. C. Russell Lee was Rector of St. Andrew's: Rev. John Muir, Minister of St. John's Presbyterian (Trinity United); Rev. James A. A. W. was Ministering to the Methodists and C. Elliott was Pastor of the Baptist Church. No mention is made of St. Joseph's R.C. but if memory serves me right, Father Finegan was the Priest.

The Grimsby Horticultural Society held a meeting which was a magnificent success, with special credit due to Mr. A. E. Cole (Cole Florists) for the grand display of plants which he made." Mrs. E. J. Palmer (Camilia Biggar's grandmother); Mrs. A. Pettit; Mrs. J. W. G. Nelles (grandmother of the Nelles Brothers) and Mrs. Henry Smith (great-grandmother of the Geddes boys). The late E. H. Reid was secretary (Mrs. Hoshal's home and farm on No. 8 Highway East).

First week in May, Reeve Thomas L. Johnson, father of Edric S. and Harold Johnson, passed to his last reward. In this issue the election card of Samuel E. Mabey appealing to the electors to support him for the Reeve's chair to finish the uncompleted term of Mr. Johnson appears. Reeve Johnson was the man who sponsored Queen's Lawn cemetery and after his demise Village Council carried out his plans and ideas. He is the only incumbent of office of Reeve or Mayor of Grimsby who died while in office. His son, Edric S., is the only son who ever was Reeve in his father's footsteps and then Mayor. Major (Dr.) Vance R. Farrell, had he not enlisted would possibly have broken this record. His father had been Reeve and Mayor and he was Reeve when he joined the force, thus son following father, the same as Edric S., but had he continued in office and become Mayor, then he would have been the first Grimsby man to be Mayor who had been Reeve also, the same as his father had been.

Dr. G. Reid Simpson was a practicing Physician and Surgeon. He was the father of Jerry and Don Simpson. Harry Stares was leading the Citizen's Band and conducting the Grimsby Choral Society.

On May 1st, 1897, A. F. Hawke took possession of the general store business of the late E. J. Palmer. In this issue of May 26th, he announces in his advertisement that the crowds on the previous Saturday had been "simply abnormal." He had marked down all the Palmer stock 60 per cent in order to make a clearance so that building alterations could proceed. That is the Hawke block today. Between West's barber shop and the Chainway was an alleyway. "A. F." built that in and created the present big building. The new addition housed a grocery store with "Gus" Cole in charge.

That's about all, folks, except that after the Gazette folded up LeRoy Oakley sold his photograph gallery and went to the Dominion Express Co., and in time became a high official with what is now known as the Canadian Pacific Express. Arthur Magness Millward stayed in Grimsby for a while with the Independent and then the lure of the Great Golden West caught him and he landed in Winnipeg where he joined the staff of the Free Press and worked his way up the ladder, not as mechanical man, but as an editorial man to high desk positions. In his latter life he came back to Grimsby and worked until his declining days on the paper that he set his first "stick" of type for, The Independent.

The Horticulturist which Mr. Woolverton established is a flourishing magazine to the betterment of floriculture and fruit growing.

As the late Dave Jackson, when Reeve of South Grimsby, used to say, this Council is adjourned, sine die.

Thursday, Sept. 19th, 1946.

Sturdy Canadian draft horses are being gathered and shipped by thousands by UNRRA for service in war-devastated Europe. The "recruiting centre" Eastern Public Cattle Market at Montreal, where already more than 9,500 have been car- for. Eventually, 18,000 will be shipped to European countries. After their long train by Canadian Pacific Railway from Western Canada, horses are herded into large barns (upper left) where they are fed, watered and groomed. A horse auctioneer (upper right) watches Dr. Charles E. Taylor, Cookshire, Que., examine a fine specimen to determine weight, age and condition. Men at the table register horses if declared fit for overseas duty. Several inoculations for each animal are part of the processing to prevent sickness transit or in Europe and in lower left Dr. Romeo Raymond, Montreal, inoculating a horse. After the inoculation a workman brands the horse's left shoulder with the letters UC, which signifies UNRRA-Canada.

### Yearns To Hear Old Organ Again

Apparently the old-fashioned parlour organ has gone to join a lot of other things that stand for an outmoded way of living, comments the Hanover Post.

A generation ago the parlour organ was a treasured part of the home and no family was complete until the organ was acquired, often with considerable sacrifice and hard work. It brought happiness into the home and also a certain social status for which nothing else had just the same standing. On a cold winter's night or on a Sunday afternoon or evening, mother or sister would sit at the organ and play all the old favorite tunes—“Sweet Genevieve,” “Seeing Nellie Home,” “Nearer, My God, to Thee,” “Rock of Ages,” “Silver Threads Among the Gold,” and so on and on.

It may not have been the great music we hear on the radio of to-day, but the family sang the old folk songs, beloved Christmas carols, the tender hymns and here was Home Sweet Home and everything and everyone seemed safe and secure. The radio typically represents modern living, the old parlour organ something we have lost—and nobody cares but the tired old has-beens who are just as “queer” as the old organs.

### Trouser Creases

We don't know what it means, but the trouser crease has withstood the age of sloppiness.

Our grandfathers weren't so fussy about having their trousers creased. They used to put more emphasis on having them well brushed.

But in the present day we find striplings going around with their shirt tails hanging out.

If they wear a tie they wear it at half mast.

Their socks dangle around their ankles and they wear a cross between bedroom slippers and moccasins for shoes.

But they are very careful about the crease in their trousers.

Even soldiers went to a lot of trouble to press the trousers of their battlefields.

There must be something about that crease to make it so hard.

A scientist says all insects respond to kind treatment. But who wants to be kissed by a bee?

### Don't Let Your Dollar Become a "TRAMP"

There is a big difference in dollars.

There is the “Tramp” dollar—the dollar that is spent away from home. Then there is the “Home” dollar with its “home” circulation, “home” benefits and “home” profits.

Though both of these dollars are marked “One Hundred Cents,” the “home” dollar continues to multiply itself “at home” for community interests are mutual. Not so with the “tramp dollar”—once spent it is gone forever.

The success of Grimsby and its surrounding territory contributes to the success of everybody in it. A prosperous town rests on the individual prosperity.

The advantage to you of spending your dollar in Grimsby is far greater than the “Tramp” dollar can possibly buy—even if it bought a hundred cents worth—and which it cannot possibly do, because the fellow in the out-of-town field must make a profit.

There is big truth in this, worthy of your serious thought. It pays to trade at home with your “home” dollar.

This Wonderful Age

A new egg beater has just been introduced that rotates when squeezed, so you can carry on a telephone conversation as you beat. Personally, we prefer the electric type, thanks. But we could use one of those new nylon combs that can be sterilized with boiling water, and will not burn when exposed to open flame, or melt at extreme temperatures.

## Something Borrowed

Before tearing the leaf off the calendar—Orange blossoms were first sent to North America in 1836 from the French Riviera... During the 18th century, guests brought along a wedding cake in the form of spiced buns which were built up into a pyramid across which the bride and groom were obliged to kiss one another. Today's wedding cake is the notion of a French cook who took to icing the pyramid... The modern wedding ring stems from ancient Egypt where the circle was the symbol of eternity... In place of rice or confetti, bridal couples in old India were showered with wet grains of barley; in Greece they were pelted with sweetmeats and flour; in Rome, with dried fruit and nuts.

## Be Fire-sighted!

Check  
that Furnace

September is the deadline to have your furnace checked against wintertime trouble. Heating equipment in many households has been neglected during the war due to manpower and material shortages. Here are the main points to check or have checked by a qualified furnace man:

- 1 Are grates in good condition, not cracked or broken?
- 2 Is firebox sound, without cracks or leaks?
- 3 Are flues, smoke pipes and chimney free of accumulated soot?
- 4 Are smoke pipes without weaknesses from rust?
- 5 Is smoke pipe tightly cemented into chimney with no loose joints between pipe sections or furnace?
- 6 Is draft system adequate to carry away fumes or gases?

National Safety Council

Hello Homemakers! Bless them all. I mean the fine array of vegetables—the long and the short and them all. Unless our L.Q. is definitely under par there are more interesting ways to serve vegetable plates than any other group of main dishes. A plate consisting of boiled vegetables is uninteresting—bake one vegetable, steam another and scallop the third. And to make a vegetable plate substantial use two root vegetables and a green leafy one. Garnish plain, uniform-sized vegetables with parsley, chopped egg, grated cheese, croutons or herbs.

### Try These Combinations

Cauliflower with mock Hollandaise sauce, broiled tomatoes, buttered peas.

Chopped spinach, carrot balls, baked onions stuffed with buttered and seasoned crumbs.

Corn-on-cob, glazed sweet potato, buttered string beans.

Baked stuffed peppers (with barley), grilled eggplant, buttered beets, coleslaw with Russian dressing.

Baked tomato with grated cheese, mushrooms, lima beans.

Baked onions stuffed with carrots, broccoli, baked potato on half shell.

Mashed summer squash, chopped and seasoned beet tops, golden tam tam corn, sweet potato croquettes.

Fried macedoine of tomatoes, onions, cucumbers and green peppers; creamed wax beans.

Green peas, turnip greens and creamed radishes.

### FRIED MACEDOINE

4 tomatoes, 2 cucumbers, 2 green peppers, 1 large onion, sliced, 3 tbsps. shortening, 1 tsp. salt, 1 tsp. Worcester sauce, few grains pepper.

Wash, peel, and slice tomatoes and cucumbers. Remove seeds from green peppers and cut in small pieces. Fry onion in shortening until slightly browned. Add tomatoes, cucumbers, green peppers, salt, pepper, and Worcester sauce. Stir together lightly and fry slowly until cooked.

### GREEN PEAS AND MUSHROOMS

½ lb. mushrooms, 1 lb. shelled peas, 4 tbsps. shortening, ¼ cup water, 1 tsp. salt, few grains pepper.

Wash and cut mushrooms in pieces. Melt shortening and sauté mushrooms. Add peas, water and seasoning. Cover and cook 20 mins.

### STEAMED CARROTS AND CELERY

3 tbsps. shortening, 4 carrots, 1 cup celery cut in pieces, ½ tsp. sugar, 1 small onion, sliced, few grains pepper, ¼ cup water, ½ tsp. salt.

Melt shortening, add onion and brown slightly, wash, scrape and slice carrots. Add carrots, celery, salt, pepper, water and sugar to the onions and butter. Cover tightly and steam until tender. When done all the water should be evaporated.

### THE SUGGESTION BOX

1. For fresh flavour, add your own garden herbs to canned sau-

2. Use lemon to bring out flavor. Rub chicken with cut lever before cooking. Squeeze lemon steak before serving.

3. Save lemon rinds and fill with tartar sauce; they make an attractive garnish for fish platter.

4. Add some red colouring to the syrup for canned pears and some green colouring to another batch of syrup. They make attractive festive salad plates.

too friendly with the wife of the other, so the one marched the other at pistol point to the wife.

She was told to make her choice and the man not wanted would walk out of her life.

She said she didn't want to have

anything to do with either of the other man in court charged with intending to endanger life.

Neither has heard of the woman since her dramatic exit.

Before radio, it was impossible to have so much hot air on the air!

Thursday, Sept. 19th, 1946.

## To those who did not get NEW RATION BOOKS!

It is not possible to issue new Ration books to consumers who apply in person at Local Ration Boards or at Ration Branches.

If you did not secure your new book during official 'Distribution Week'—then mail your application card to any Local Ration Board or Ration Branch in your vicinity.

Your application is to be made on the green card, marked RB. 191, at the back of your present book No. 5.

Be sure that the card is filled in completely before mailing, and that your name and address are printed.

DELAYED APPLICATIONS will have to be cleared through the main office of the Ration Administration—and your new book will be mailed you as soon as possible.

THE WARTIME PRICES AND TRADE BOARD

## THE PROVINCE OF PROMISE...

ONTARIO'S growing gold... her largest cash crop...

is tobacco. Its twenty-year development, from nothing to really something, has been due almost entirely to the phenomenal increase in flue-cured tobacco—the most valuable of the three types grown here. The others are burley and dark-leaf. This year, a fourth type, cigar leaf—one thousand acres of it—opens rich, new Ontario possibilities. Tobacco is a delicate plant and a demanding one, needing utmost watchfulness and even handmade encouragement during its complicated cure. Its cultivation means back-breaking, short-season work with high rewards for all concerned.

### A CORNER ON TOBACCO

The annual Ontario production of tobacco is about 97,000,000 pounds—its value around \$30,000,000. In the southwest corner of the province, some 90,000 acres are planted to it and the Ontario crop represents nine-tenths of the Dominion yield. 85% of this is high-grade flue-cured—the less-carefully-treated burley and dark-leaf making up the rest. It is an industry in which a few experts prepare the scene for a sudden rush by thousands of workers in the crucial harvest weeks.

Henry Bull, Chairman.

Fred Jewson, Sec., Local Ration Board.

Obituary

The past week saw the 15th annual shipment of luscious fruit go forward from the Grimsby District to Christie St. Hospital, Toronto. Since 1931 Lincoln Loyalist Chapter, I.O.D.E., has been responsible for this collection of fruit for the veterans at the Hospital.

A total of 118 baskets, many of them 11 quarts, and 3 large hamper of apples, peaches, grapes, pears and plums, were contributed by the following: A. W. Eickmeier & Son, Niagara Packers, A. Hume, Geo. Lawrence, O. Davidson, T. H. Trant, Furniss Clark, James Cross, H. Brailsford, W. Williams, J. H. Gillespie, Don Parker, Cecil Bell, Mrs. C. H. Durham, The Misses Cline, Wm. Lothian, Wm. McNiven, Mrs. Morningstar, Miss W. Congdon, Miss Anne Crane, A. Hermitage, Mrs. R. N. Wolfenden, E. W. Phelps, J. McCausland, Don Beamster, E. A. Buckenham. To these the choir extends grateful thanks.

A word of special thanks and acknowledgement is due also to the Mitchell Transport Company, who pick up and deliver the fruit free of charge, to the Hospital.

Members of the Chapter in charge of collecting the fruit were Mrs. J. McCausland, Miss Eva Cline and the Regent, Mrs. E. A. Buckenham.

The annual harvest home service of St. George's Anglican Church, Tapleytown, was held on Sunday, Sept. 8th, at 3 p.m. The service was in charge of the Rector, Rev. K. G. Kiddell. The guest preacher was the Rev. W. H. Langhorn, Rector of St. Matthew's Church, Hamilton. The music was provided by some 40 members of St. Matthew's choir. During the service they rendered two anthems, "Praise to the Lord," and "While the Seed Time." The Church was beautifully decorated by the ladies of the congregation.

It's usually a man's dream girl who causes him to lose a great deal of sleep.

Obituary

GEORGE L. WALKER  
Mr. George L. Walker died at his residence in Toronto, Wednesday, September 18th. Funeral services will be conducted at the home of his daughter, Mrs. J. S. Easson, Main St. West, Friday, September 20th, at 2 o'clock, with interment at Queen's Lawn Cemetery.

Beaver Club

The Beaver Club of St. Johns Presbyterian Church held their social meeting today, September 16th, in the Church Rooms. An amusing reading entitled "An Anthem" was read by Mrs. H. G. Mogg. Birthday of one of the members was recognized by presenting her with an amusing gift. Shuffleboard was played for a short time and a dainty lunch served by the President. Members are asked to keep in mind the business meeting Monday, September 23rd, in the Church Rooms. Important business will be discussed. Hostesses will be Mrs. B. P. Stewart and Mrs. Wilfred Lawson.

Women's Institute

The Women's Institute met at the home of Mrs. S. Stuart, Robinson St. S., on Tuesday evening.

Mrs. Layton, President, occupied the chair. After the business was finished Mrs. J. Aikens gave a very interesting talk on "Youth Education." Home is the centre of our lives and should be as home like as possible to keep the young people interested. There are no delinquent children but there are delinquent parents and if the children were taught the right way of living from early childhood they would grow into better citizens.

Mrs. R. St. John, Mrs. W. Ramsay and Mrs. S. Stuart then served a dainty lunch and a social hour was spent. With the singing of the National Anthem a very enjoyable and interesting meeting was brought to a close.

Boy Scouts

A prayer opened the scout activities of the night. The Patrol leaders were then instructed to take their patrols to corners and drill them on scout work, in which the Beavers showed up the rest of the troops. An inspection was held and a few points were lost by a few Smart Alecs in the troops. A new game was played, the Bulldog patrol being the winner. After this the honour patrol flag was given to the Beavers. The meeting ended with a scout repeating the law.

All scouts are requested to wear full uniform next meeting.

Fruit Estimate  
Is Increased

(Dominion Department of Agriculture)

Some encouraging figures are given in the latest estimates of the 1946 crops of tree fruits and grapes in Canada. The official estimate made at the end of August shows considerable improvement over the former estimate made in July. The apple crop is now estimated at 15,940,000 bushels compared with the July estimate of 15,644,000 bushels. This year's apple crop is 100 per cent greater than that of 1945 and 14 per cent larger than the 1935-44 average.

Pear prospects improved 9 per cent since July to bring the 1946 estimate to 816,000 bushels. The crop in 1945 amounted to only 600,000 bushels.

In the outlook for plums and prunes, an increase of 7 per cent brings the crop to 642,000 bushels. The 10-year average is 339,000 bushels.

Peaches also bring the estimate since July bushels or 69 per cent to 2,080, 10-year average.

Apricot production per cent above the ton is set at 166.

Prunes are up 10 per cent above the 10-year average.

The cherry or an increase of 8,267,000 bushels the July outlook of per cent over

248,000 bushels show an increase.

Grapes also report the present

since the July 18,000 lb. is 9 per

estimate of 72 per cent and 43

per cent greater

average.

Time Table Changes

EFFECTIVE

Sunday, Sept. 29, 1946  
and other specific dates.  
Full information from Agents.

Canadian National Railways

Phone Orders must be in by Friday for Delivery on Saturday.

Welcome

Sept. 14th—To Donald and Mrs. Jones, Winona, a son.

Sept. 16th—To Thos. F. and Mrs. Hill, Grimsby, a daughter.

In Memoriam

HURST—In loving memory of dad, Harvey A. Hurst, who passed away, September 18th, 1945. Also mother, January 4th, 1937.

They have taken their last long journey  
In the Beautiful Ship called Rest.  
Out of this world of sorrow,  
Into Eternal Rest.

—Never one day forgotten by the family.

Roxy Schedule

The big double hit feature "Jeze James" and "The Return of Frank James," showing at the Roxy Theatre the first three nights of next week, will be run on a strict time schedule. The schedule is as follows:

"Jeze James"—7 to 8.45.  
Fox News—8.45 to 8.55.  
"Return of Frank James"—8.55 to 10.25.  
"Jeze James"—10.25 to 12.10.

N. S. Apple Crop

To harvest the 1946 apple crop of 1 1/2 million barrels or 4 1/2 million boxes in Nova Scotia it is estimated that about 2,500 additional helpers will be required. There are 2,000 commercial orchards in the Annapolis Valley, extending over the countries of Hants, Kings and Annapolis. The quality of the 1946 crop in Nova Scotia is above the average.

Fruit By Air

Seven thousand pounds of blueberries grown in the Lac St. Jean area, P.Q., constituted the first plane load of this fruit ever to be flown from Canada to the United States. The other day, the cargo was packed and graded in warehouses at Arvida, the central assembly point 20 miles down the Saguenay River from the main growing area, and was flown from Bagotville, the nearest airport, to New York.

Georgian Bay Has Fine Apple Crop

Owen Sound, Sept. 6—Georgian Bay district apple growers are predicting one of the finest crops on record this year. At present, fruit is sizing up well and shows every promise of being an excellent quality. Many new orchards are coming into full bearing, and in St. Vincent Township alone it is estimated that 10,000 trees are coming into maturity. Early varieties of apples have been exceptionally heavy and it is expected that Spies, too, will be a big crop.

Three Injured

Three men were admitted to West Lincoln Memorial Hospital with injuries sustained when their automobile failed to negotiate a curve on Thirty Mountain road and overturned in a field after hurling both ditch and fence on Friday night.

They were Allen Tremaine, 58, of Grimsby, with fractured ribs, fractured clavicle and lacerations; Carl Hooper, 34, Grimsby Beach, lacerations to scalp, and William Smith, Niagara Falls, N.Y., shock.

Provincial Constable Ernest Hart, of Smithville, investigated the mishap.

DON'T DISCARD OLD BOOK YET

Stop and take a good look inside your old ration books before you chuck them into the ash can. That is the warning from the Ration administration following reports that many consumers who have obtained new books are discarding old ones.

The old ones in Book 5 are still

Some cod for the purchase of valid and good services and butter, sugar, meat in valid until the time of issue. The will illustrate declares Ration authority use, them no longer.

## Protect Your Family

PARENTS SHOULD TRAIN KIDS  
HOW TO ACT IN CASE OF FIRE

Firemen have always said that "a good house is one you can get out of." It might well be added that a good householder is one who knows how to get out in an emergency.

If this sounds trite, consider the case of two "teen-age" boys in a Western town who died just outside their bedroom door when their home caught fire. From their second-floor bedroom they had only to step out on a porch roof, then drop safely to a garden below. But in their sudden panic they did what practically everybody does under the same circumstances: They started for the main stairway—and never made it.

Three-quarters of our dwelling-fire deaths occur upstairs from downstairs fires simply because heat rises. When a fire gets under way, super-heated air and combustion gases, ranging from 800 degrees, to 1,000 degrees in temperature, quickly flood the upper hall of a house. People, roused from their sleep, who dash excitedly into that hall from their bedrooms are often felled in their tracks, dead long before the actual flames reach them.

A little advance thought and training would have countless lives. If you wake up and smell smoke, don't jerk open the bedroom door. First, put the palm of your hand on the door panel above your head. If the wood is hot, don't open the door; it is too late. The hot wood (or even a hot doorknob) means that the hall beyond is charged with lethal heat and you can't possibly make the stairs.

Instead, leave the door closed; escape by a window, if possible; or at least yell for help from the window. With a closed door between you and the fire, you have every chance of surviving until rescue comes.

If the door isn't hot, open it cautiously. Brace your hip and foot against it, to be prepared in case you have to shut it quickly. Put the palm of your hand across the crack above your head. Then open the door an inch or so. If there is any pressure against the door—or if you feel an inrush of heat on your hand—slam it shut and take to the window.

Next to the knack of opening doors properly in a burning building is the business of closing the door. Time and again the person who discovers a fire rushes off in a frenzy of excitement leaving the door of a room wide open. Naturally, the accumulating heat and fumes are free to sweep upward through the rest of the house, unimpeded. If that door were instantly slammed shut, the fire and its advance guard of heat and gases would be bottled up for quite a few minutes, and perhaps the house could be saved.

The classic case in point is that

of the young housewife who tried to pep up the coal fire in her kitchen range with some kerosene; the vapors exploded, blowing fire all over the room.

By the time she regained her breath the whole kitchen was in flames. Her first thought was for her baby, asleep upstairs, so she tore out of the kitchen to the nursery, grabbed the child and started back downstairs.

Meanwhile, neighbors had telephoned an alarm. The fire department responded promptly from a station less than a mile away, but

when they arrived they found mother and baby dead in the upstairs hall.

Surviving the blast, which went off virtually in her face, she was killed by the lethal fumes which raced up the stairs—because she didn't close that door behind her.

Firemen agreed that thousands of householders would still be alive if they had put known and practised these simple techniques of opening—and closing—doors.

—A condensation of an article by Paul W. Rearney in Redbook Magazine.

Meet Erasmus  
Delegate  
At Large

Some people are born to serve as delegates to conventions. If a man has a magnificent physique, a bland and contented physiognomy and an important gait, he has what it takes, provided that he also has the one prime requisite of a delegate—a great love for travel if somebody else pays his expenses.

My mother's cousin, Erasmus, devoted the best years of his life as delegate for the local lodge, the Walrus Club, the Fireman's Society, etc., etc. Many a time Erasmus, tired and disheveled, would drag his tired feet home from the depot and kiss his wife. Then she would tearfully inform him that he had been appointed as a delegate to something else. Without unpacking his suitcase, Erasmus would gather his wife into his arms again kiss her good-bye and hit it off back to the depot. Erasmus believed in his work.

Erasmus always seemed on the point of saying something worth while, but he very adeptly sidestepped ever committing himself definitely on any subject. He'd bring himself up short with these words: "There are always two sides to every question, you know." (His closest friends never did know whether he was a Republican or a Democrat.)

Probably the reason for his long popularity as a delegate was the expert timing of his speeches. Take, for instance, when at a sweltering two weeks' convention in August, Erasmus didn't rise to his feet until the last day. Then, with the crowd itching to go home, he would heave his two hundred pounds upright and emit a few fitting words about our wonderful country and the noble men and women who got us to where we are. "Folks," he'd say, "I believe we have heard our share of inspiring speeches, and now if you are as hot as I am, I feel that you will concur in my opinion that it is time for this great convention to adjourn."

—John Goodwin, in Christian Science Monitor.

An old-timer is the one who can recall when it was considered good taste to carry a chaperone along.

Things are better. Many a man who is a stuffed shirt today didn't have a shirt to his name a few years ago.

"that's a fine home you're building!"

YES, I think I'm going to like it.

I wish I had a home of my own.

Well, why not?

My wife has the idea that it would be a great worry if anything happened to me.

Nothing to it, my boy. The arrangements I've made with the SUN LIFE OF CANADA will clear the mortgage in the event of my untimely death.

I never thought of that. What about the cost?

Insignificant! In fact, it adds very little to the carrying charge of the mortgage.

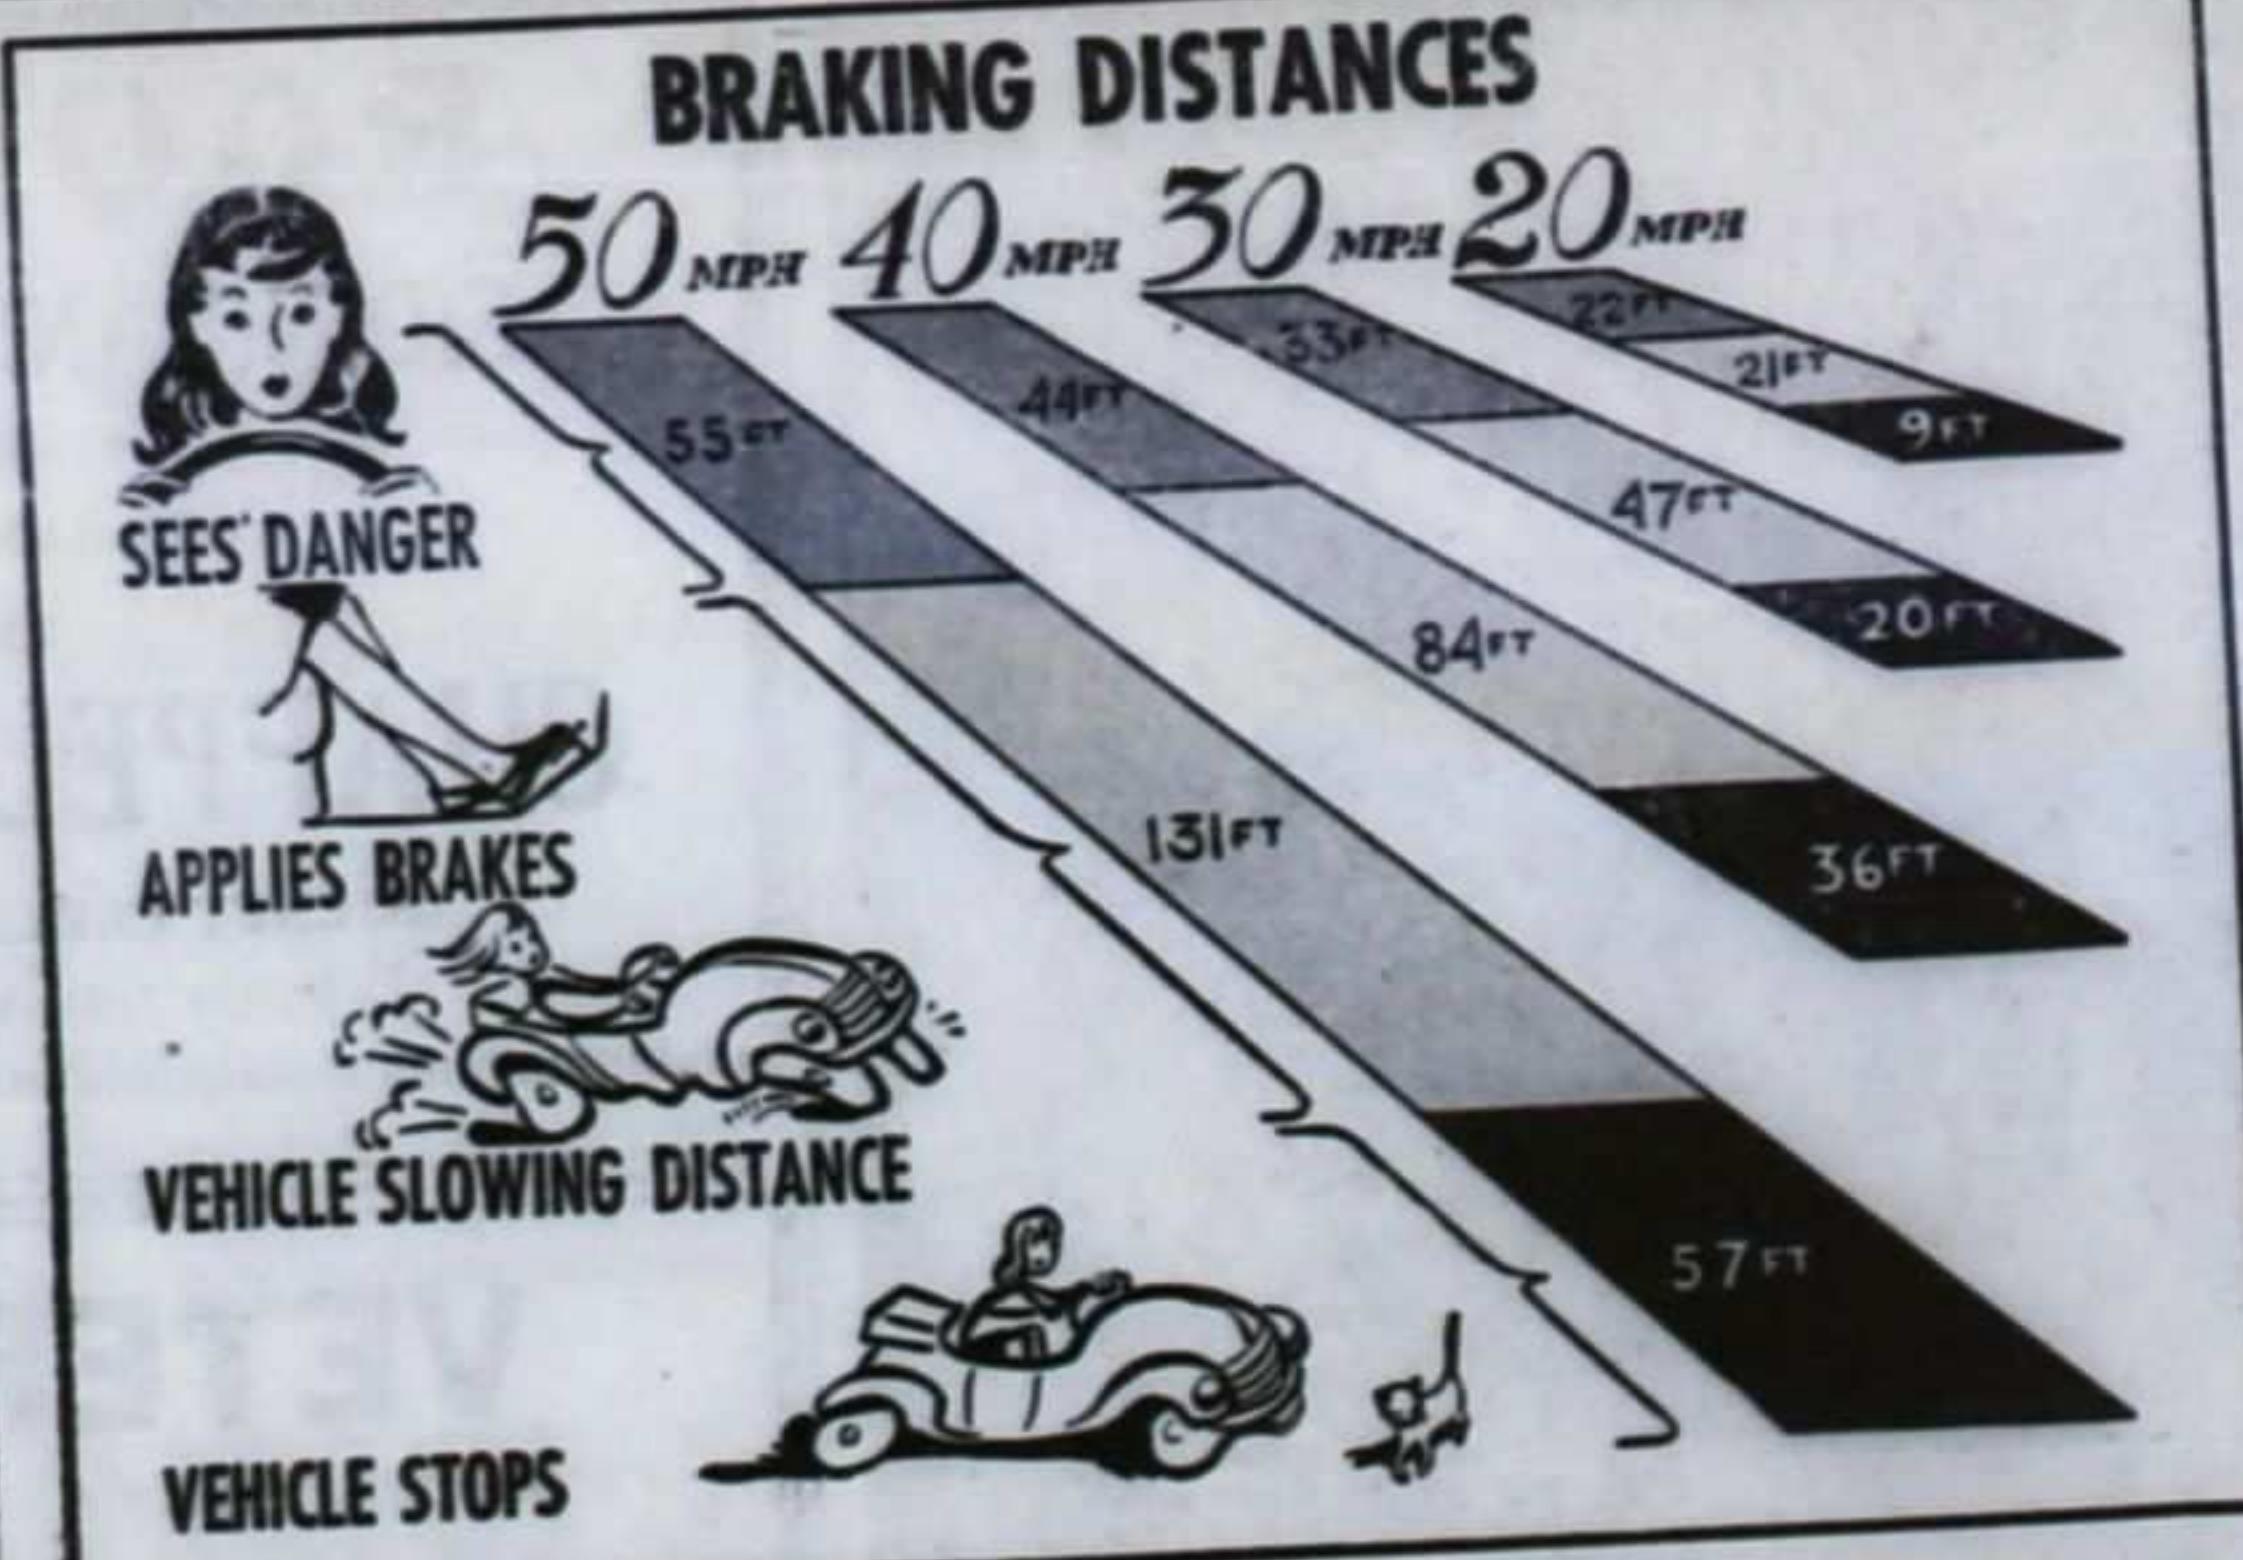

You are a home-owner, make an investment safe for posterity. A SUN LIFE man will be to talk it over with you.

How long does it take to stop a car on dry concrete? Say you are an average driver traveling 30 miles per hour when you see a child on the road ahead: your car will travel 33 feet before you react to the danger ahead. It will travel another 47 feet before you can stop it if you have good brakes. If your brakes are only passable, it will travel another 20 feet before it stops. The total, 100 feet!

National Safety Council

LINOTYPE MECHANIC MARVEL  
WITH A MYRIAD MOVING PARTS

Back of the business and editorial offices is that mysterious realm known as the "shop," or, if you wish to be more precise, the premises occupied by the mechanical staff.

Here, on processes all based on the fact that if you press an inky bit of lead against a piece of paper, there will be a mark on the paper, are accomplished tasks varying from the printing of a business

card to the production of a 24-page edition of a lively and up-to-date semi-weekly newspaper.

The first piece of machinery to which visitors invariably are attracted, is the linotype machine. Today there are a great many people in Kirkland Lake who have seen one in operation. We are not going to try to be technical, for we couldn't if we tried, but perhaps a brief summary of the results obtained by hundreds of cams, springs and pulleys might be given.

The linotype casts in metal a solid line of type. First operation is the touching (a very light instantaneous touch, utterly different from that on a typewriter) of one of the keys on a keyboard. This releases from a magazine placed at the top of the machine a matrice, or mould of brass, which slides down a channel into a sort of frame.

When these matrices, and spacing between the words, with finer ones to tighten up the whole thing, have reached the width of the line as required (it may be single or double column or some other measure) they are carried. "clipped"

tightly together, against a mould from which a quantity of molten metal is squirted against them, thus forming the "line of type."

Meantime the row of matrices has been carried up to the top of the magazine by an automatic arm which attends to that business and nothing else. Here they are carried along a bar to drop each into its allotted "channel." This apparently remarkable process is accomplished owing to the fact that each matrice has "jaws" with which it grips the bar, which is grooved, with breaks in the grooves. On the principles of a modern lock and key, the matrice is released when certain notches in its jaw meet certain gaps in the rod along which it travels "home" and into its own chute or channel, from which it will, in turn with others, later drop again at the touch of the key.

Such is naturally but a very rough description of one of the most elaborate and yet durable and hardy machines there is in the world today.

When your "line of type" is cast, it comes out with the print in reverse to the way you will read it on paper. You read the type on the line or "slug" upside down, left to right, from the top, and it's quite easy, once you're used to it.

When you have a complete news article, or advertisement, or other piece of "copy" set up—but that is another story!

Nature Unspoiled  
YOURS TO ENJOY  
YOURS TO PROTECT

Based upon a picture painted for Carling's by William Book.

This is one of a series of illustrations on the subject of the Conservation of Canada's natural assets designed to emphasize the fact that the beauties of unspoiled nature that we enjoy today are a precious heritage which we must protect for tomorrow.

## BANK CREDIT BRIDGES THE FINANCIAL GAP

Every day, business firms make use of bank loans to keep men working, machines running, goods flowing. This bank credit may be used to meet continuing expenses while goods are being processed; to build up stocks of raw materials; to purchase component parts. As finished goods reach the market and payment is received, the loan is repaid.

Enterprising farmers, fishermen, merchants—all make similar use of bank credit to meet their short-term financial needs. Thus your bank helps Canadians maintain steady operations—to take advantage of market opportunities both at home and abroad—to grow. And this, in turn means more work, more goods, a higher standard of living for you and for every Canadian.

## "Forest Fire—The Common Enemy"

The scream of a rabbit pierces the hissing roar of the forest fire as a tall spruce bursts into flame like an oil-soaked rag. A deer, wild-eyed with terror, bursts from the undergrowth and makes for the protecting waters of a small lake where other creatures of the wild, forgetting all lesser fears, stand huddled together, shivering with fear of fire—their common enemy.

Crackling and hissing, its advance-line of windblown sparks reaching far ahead, the forest fire takes its terrible toll of wild life and forest wealth. In its wake nothing is left but blackened tree-trunks and desolation.

A lurid picture? Yes, but a true picture, and one that is seen all too frequently in Canada's forest lands. Statistics show that out of 6,000 forest fires in Canada every year, only one in six owes its origin to natural causes (lightning, etc.) The rest are caused by human agencies, and can be prevented.

As a shareholder in Canada's natural wealth, every Canadian has a vital interest in conservation. And conservation is the concern of all who are interested in the continuance of our national economy and our future prosperity, rather than the concern of a chosen few. The success of conservation measures depends upon the full support of all Canadian citizens.

## "Jasper the Crow" Now Pal of Celebrated Movie Dogs

"JASPER THE CROW", now a movie actor in his own right, is a great pal of Bing Crosby's dog "Buttons" and in inset receives some Hollywood silver screen advice from his friend and trainer, Frank Inn.

The day Inn, Paramount animal trainer, found "Jasper the Crow", near Maligne Lake in Jasper National Park, battered and torn after a fierce crow combat, Bing's dog "Buttons" was having his own troubles at Jasper Park Lodge where Joan Fontaine's "Scheherazade" was indisposed. At the left, "Buttons" sizes up the situation and (right) finally has to phone for more professional advice and help. Thanks to Trainer Inn, "Jasper the Crow" was patched up and when "Scheherazade" recovered, all three friends returned to Hollywood, where Jasper has won his first movie role in "Golden Earrings", with Marlene Dietrich and Ray Milland.

MITCHELL IS ON  
would like to know why no inquest was held."

Council will work in conjunction with South Grimsby in order to get the Johnson Drain cleaned out.

A new, small sub-division is being opened in Grimsby Beach on the old Midway road, east side. Council gave approval to the scheme.

Relief account for August totalled, \$80.

A. R. Globe appeared before Council on behalf of West Lincoln Memorial Hospital and asked that Council recommend to the 1947 Council an inclusion in their budget of one mill on the tax rate for the hospital. On present assessment this would amount to \$1,639, or 60 cents per capita population if the whole amount were drawn. Council will make a final decision at a special meeting of council on Saturday the 28th, when the mill rate for 1946 will be struck.

A grant of \$50. was made to A. W. Eickmeier and Son to assist them in rebuilding and widening the road into the fruit loading platform at Grimsby Beach.

WOMEN'S HATS  
enough to look after the human law. If people wish to go about in abbreviated costume without hats or other parts of their clothing, that is a matter for the police on the street and not for me."

He pointed out, however, that when a man entered church he took his hat off, and when a woman attended divine service she wore a hat "or any substitution therefore—some sort of contraption which feminine ingenuity calls a hat."

"I am not a judge of what a hat is according to feminine ingenuity," he continued. "But I understand that it is anything from an inverted saucepan to a hen's nest. I do not want any inverted saucepans and I do not want any hen's nests, but anyone who is called to testify in my court must be quite properly garbed, a man without his hat on and a lady with her hat on. I do not want any man coming into my court in his shirt sleeves to give evidence. I want that clearly understood."

It wasn't for his own gratification that he insisted on this point, but rather in "recognition of that which I stand for when I sit here." Mr. Justice Chevlier explained that the court sat as the direct representatives of His Majesty. Anyone attending an investiture at Buckingham Palace went there properly garbed, and he felt the same rules should apply in our courts.

"When I leave this bench and resume my well-worn daily suit, then I return to the ranks of an ordinary citizen, but when I sit here I want proceedings to be conducted with the same dignity and decorum that they are conducted with in the British courts in London," he said.

"It is my love and my respect for British tradition and British precedence that forces me to act in that way," he commented. "If there are people who don't care for those principles, who do not respect them, who do not want to see them survive so they may enjoy their benefits, then let them treat those principles in the way they like, wherever they may be, but not in my court."

## REUNION A SUCCESS

The Smithville Women's Institute, with women dressed in old-fashioned costume operating spinning wheels and ancient butter churns, attracted considerable attention. Also battling for attention were the floats of the Dorcas Chapter, No. 111, Order of Eastern Star, and the Canadian Legion, which had a facsimile tank mounted on a truck.

Midway through the parade came a shiny new 1946 car, but even in these days of car shortages most eyes were glued to the vehicle which immediately preceded it. That was an ancient 1915-vintage Ford open touring model, driven by Roly Topp, director of admissions for the fair. As passengers he had Mrs. Topp and Mr. and Mrs. Jack Pennell, all of whom were dressed to fit the year in which their car was the newest thing on the road. The car was last driven in 1934, but Mr. Topp said that it started like a charm when they tried it out—almost. One valve was stuck and two new tires were needed.

Friday night's parade ended up at the fair grounds, where entertainment by Hamilton radio artists and a monster fireworks display rounded out the evening.

Housing presented a problem to officials but Reeve S. H. Ecker, of South Grimsby, in charge of registration, told The Independent: "We've got everybody taken care of, and I don't think anyone will have to go without a bed. Of course, we expect a much bigger crowd by Saturday afternoon."

Smithville Old Boys are back "home" from half a dozen American States and from all parts of

Miss M. Morris, clerk of the Church read the statement from the Church of Mr. McLean's call and its acceptance. The choir with Mrs. F. Simpson, the leader, and Miss G. Ormiston at the organ, assisted in the service. Mrs. H. Cartner favored with a well rendered solo.

The Church and school hall was lavishly decorated with beautiful flowers for the occasion which added to the success of the entire evening.

After the induction an informal reception was held in the school hall where many of the members of the Church, visiting friends from other Baptist Churches and from the other local congregations gathered to bid welcome to Mr. and Mrs. McLean.

On account of the illness of Mr. R. Colpitts, Chairman of the Deacon's Board, Mr. L. J. Pettit presided at this meeting and gave the welcome of the Church to Mr. McLean, while Miss E. Cline, in gracious, well chosen words expressed the welcome of the ladies to Mrs. McLean.

The Rev. W. J. Watt spoke for the United Church and gave sincere words of welcome while the Rev. E. A. Brooks gave feeling words of greeting from the St. Andrew's Church. Rev. F. MacAvoy, of the Presbyterian Church was unable to be present but sent greetings from his Church and all expressed the conviction that the Churches of the town had a great united mission and were well fitted to carry it out because of the harmony and co-operation which existed.

Mr. McLean replied briefly with words of thanks to all and expressed his joy at such an agreeable situation and promised to do his best to make the united ministry of the Churches effective.

Dainty refreshments served by the ladies of the Church brought a truly happy, inspiring evening to a close.

Thrills, Romance  
In All-Time Hits

The James boys ride again, when 20th Century-Fox's encore triumphs — "Jesse James" and "The Return of Frank James" — come to the screen of the Roxy Theatre on the first three days of next week to thrill audiences anew with their reckless adventure, thrilling action and unusual romance.

Acclaimed as two of the greatest Westerns ever filmed, the two hits — both presented on the same programme — fill the screen with a brilliant roster of stars headed by Tyrone Power, Gene Tierney and Henry Fonda.

Both the products of their times, Jesse and Frank James lived in a day when the spirit of lawlessness was abroad in the land. It is generally conceded that it is their part in the struggle of the Missouri farm people to save their homes from unscrupulous seizure by the railroads that turned young Jesse James and his equally notorious brother, Frank, to a life of outlawry.

## BREVITIES

EVENTS and TOPICS  
of the WEEK in  
TABLOID . . . . .

Send in your news items.

Humane Society tag day, Saturday.

Once again, Thanksgiving Day is Monday, Oct. 14.

Saturday, Sept. 21, is the first day of Autumn.

Fred Thomas, night chef at the Fruit Belt Restaurant, suffered the loss of the tips of two fingers in the bread slicer on Saturday evening.

Councillor Sam Bartlett, Grimsby Beach, is engaged with the Department of Finance in Ottawa, working on plans for the forthcoming Dominion loan.

Fit-Lieut O'Gorman of the R.C.A.F. was in town on Tuesday in the interest of the recruiting campaign being conducted to secure men for the permanent force.

Mid-Town Motors have pleasure in announcing that Peter Boyko who has disposed of his trucking business, has joined their staff as a salesman for "Rototillers" and farm equipment.

Councillor Wm. Mitchell of North Grimsby, underwent a minor operation on his arm at West Lincoln Memorial hospital on Saturday morning last. It did not prevent him from attending Township Council session in the afternoon.

Property transfers in St. Catharines indicate that the peak in property prices has been reached and that a slight decline is in effect, according to Assessment Commissioner Martin H. Laird. The report for August shows 105 transactions for a total value of \$363,187 and 22 family transactions at \$1 each.

At the conference of the Canadian Council of The Blind, just concluded, in Winnipeg, James A. Jackson, of Grimsby, was elected to the Board of Directors. A White Cane Campaign is planned for the first week of February next. "Jimmy" went on to Saskatoon and Regina for a visit with friends and relatives.

Fort Erie holds a coveted position among the ranks of tourist towns. Figures recently released by the collector of customs show that it has regained a premier position as a tourist entry point in Canada. During July, 231,725 vehicles were reported to have crossed the border at this point.

At the monthly meeting of the Lincoln County Pensions Board, Thursday, nine applications for old age pensions were recommended by the Board. Six other applications were laid over for further investigation. Chairman George Hedley was in charge of the meeting with the following members present, George Montgomery, Walter Shepard, Mrs. W. H. Groce, Miss Marlene Trembley and Miss Jean Davidson, Secretary.

Fourteen persons were administered the Oath of Allegiance by Judge J. G. S. Stanbury in naturalization court held last week in the Lincoln County courthouse in St. Catharines. Applications of 26 other persons for naturalization were approved. They will take the oath after the applications have been sent to Ottawa and the Oath of Allegiance have been returned. It was estimated this would take from six to nine months. Naturalization courts are held every three months.

The Cyclone Coaster, a Crystal Beach amusement feature since 1926 will zip around the curves no more. The structure is being dismantled by workmen from the Standard Steel Company, Welland. The coaster is estimated to contain 250 tons of steel and 20,000 board feet of lumber. It has carried more than 5,000,000 persons around the 2,000 foot track on a trip which required 40 seconds. With the exception of the first climb, the event depended on the force of gravity.

Fruit growers wishing to establish stands along highways must obtain building permits from the Ontario department of highways, department officials have announced.

The sites approved by the department must be far enough back from the highways to permit automobiles to park on the grower's property.

Ontario provincial police were reported ordering growers to remove their stands from the edge of Queen Elizabeth highway in the St. Catharines area and advising them to obtain permits from the highways department.

Utopia must be the place where there are no practical jokesters.

REAL  
ESTATE

Robert J. Shepherd has sold his fine home in Smithville to J. N. Smith, also of Smithville. The deal was closed through the office of W. Congdon, Realtor.

Big Foundation  
For New Building

Big progress is being made on the taking out of the large foundation hole for the new building of Thompson and Son on Main East, where Hong Lee used to have his wash-and-wash shop.

The size of the new building has been increased over previously announced plans. It will now have a frontage on Main street of 36 feet and a depth of 76 feet instead of 70 feet as originally announced.

A big bulldozer is now at work taking out the foundation for the basement, which will not be under the whole building, but only at the rear. This basement will be 36x44 with a head clearance of seven feet.

The building will be constructed of steel, cement block, brick and glass front.

It seems that someone will always be gunning for the dove of peace.

All Merchandise sold at your Dominion Store is unconditionally guaranteed to give 100% satisfaction.

## CONTINUATIONS

From Page One

GETS SIX MONTHS up. Wilcox claimed Murphy said: "It's my pen."

Milo Jacob, also a watchman, said that Murphy had driven away and when he attempted to switch off the ignition, Murphy had shoved him from the truck running board.

Murphy, examined by Ross Wilson, defence counsel, said he had stopped at Smithville, en route from Welland to Hamilton, and found a window open and the building lighted. He was shouting through the window for "Munroe" whom he believed was in charge of fair concessions. Murphy said he wanted to rent space to run a stand on Saturday. He denied any knowledge of the money, and said he thought the fountain pen was like one he owned. The magistrate said he was unable to accept Murphy's story and registered a conviction.

## Grassie News

(Mrs. Clifford Walker, Staff Correspondent)

Mrs. Howard Hysert has returned to her home from the hospital. We all wish her a speedy recovery.

Quite a number from Grassie attended the Old Boys' Reunion and Fall Fair, Saturday, at Smithville.

Mrs. Minnie Merritt spent a few days with her sister, Mrs. Joe Ryman, Smithville.

Mr. Stewart and family are taking over the Peacock store beginning next week.

Mr. Fred Duck has started to work on his new home.

A man is an animal who can secure authority over most anything except his children.
